

Letter to the Editor

I understand that the governor has reinstated the electric chair to take care of the prison on death row. After what he has done to my friends in Knox county, I would like to strap his butt to the chair and give him about half the jolt. He raised the peoples taxes when he bought that piece of property for the state and took it off the tax books. Somebody has to make up for that \$4,000,000.00 that was taken off the tax books and you people in Knox county will have to take care of the deference when you pay your taxes.

We need to look into the timber cutting on all our wild life areas. It is my opinion that somebody is making away with a lot of money. I work hard to get them to not cut the trees and did get the areas that they are cutting cut down to 5 acres and now they have cut an area that has 57 acres in it. This is on Catoosa Wild Life Manage Area. The TWRA will be change if I get elected

I went to Nashville early this week and I was in a hurry, speeding of course and every was passing me. they were doing at lease 75 or 80 mph. We need our speed limit raised up to 80 mph, and we need the cable fences taken down on the interstates. These are a politic sham. I don't know who had them built, I would like to know how much they cost. I will find out for all of us.

I never seen any politician pick on the working people and run for office again. Our governor has took the tenure away from the teachers, now they have no seniority and the prison guards he took the civil service away from them, now they have no seniority.

It is time to make a difference and you can do it

My maine intention is to put the bible back in school. I am not a preacher Just a sinner saved by grace.

I have enough money to do me the rest of my life and enough income to do me the rest of my life, so I don't need to steel form you and If I get elected I will take my salary and buy hugh deers for all our Wild Life Areas. And we will have hog hunting again

If you would like to goin my campaign and contribute , please send donations to the address below.

One more thing. Please join The NRA.

Thank you

It is my opinion that there is something wrong with the management of the Tennessee Wildlife Resources Agency (TWRA). I have seen the destruction of the areas where the clear cutting has been done and its terrible. This is our money, as Sportsman that is paying for this. Now it's time we had a say so in where our money is spent. I don't know if all the money is being turned in or not, but I have my opinion. I am a candidate for Governor of Tennessee and if I'm elected I will investigate it thoroughly. I think the TWRA board of directors needs to be made up of our house and senate holders and that way you can get to them and they won't be bought from the Governor. I believe the buying power of the Governor needs to be taken away. The state don't need any more land. Like that was bought in Knox county, which was appraised for \$4,000,000.00. and our Governor bought it for the state for \$10,000,000.00 I don't think that is good management for our state. I will not go any farther on that matter.

I have not seen anything planted for the animals but a small plot of milo and clover. The milo is only good for their seeds and it last about 2 weeks in the Fall, The clover is so scarce it can only get a couple inches high and the deer keep it eat off.

I think the TWRA needs to be put back into the hands of the House and Senate. The board of directors need to be selected from the House and Senate so we can get to them. Directors cant buy their way in through the Governor. This will be if I am elected your Governor.

I will spend my 1st years salary to bring in buck deer from these deer farms that I can buy and we will have hog hunting again. Remember many dollars the TWRA spent on catching the hogs and then turned the hunters in on them. That is bad management.

My first thing to do is to get the Bible back in school. There are less than 20% of the people go and take their children to church so these children have less chance of learning about the bible or getting saved than a dying calf in a hell storm.

I am not a preacher, just a christian. Saved by the grace of God.

I am a democrat candidate for the Governor of Tennessee.

Don't forget to join the NRA with me. The NRA is working for your freedom every day in Washington D.C. as well in Nashville. Please join.

The Governor we now have has taken away thru tenure away from the school teachers. What this means is, Teacher have no promise of a job tomorrow. Someone in charge can dismiss or fire a teacher that has been teaching for like 20 years and keep a teacher that has been there for only 2 weeks. Now I know that every teacher does not net the criteria of everybody. This should be taken care of by some one in charge and have proof of the circumstance.

This Governor we now have has taken away all cavil service from the person orads some police officers and even our game and fish people. I will give it back
