

FLAG RESOLUTION

Whereas on June 14, 1777 the Continental Congress approved a flag of the then thirteen United States of America,

And whereas that flag was stipulated to have 13 stripes, alternating red and white,

And whereas that flag was to have as a union, a rectangle at the mast and at the top, of a field of blue,

And whereas that flag was to have a star, one each, representing each the 13 United States at that time,

And whereas the nation has since enlarged and increased the states, so to the stars in the union of the flag have increased,

And whereas these stars still represent what congress approved on June 14, 1777 "a new constellation"

And whereas more Americans have lost life contesting and defending the union of the United States even on US soil,

And whereas there can be no doubt that the nation is indivisible, buy sedition and treason treason. Therefor be it

Resolved by the Blount County Democratic party, that like Abraham Lincoln, "we here highly resolve that these dead shall not have died in vain", and that to patriots, there is ONLY ONE FLAG OF THE UNITED STATES OF AMERICA.

Ordered, This to be entered into the minuets of the Blount County Democratic Party and released to the public by all means.

On August 13, 2015 – the 240th year of our independence.
